

Polyurethane chute & hopper lining

Abrasion, corrosion, impacts and other related wearing forces involve the whole processing plant causing several damages and consequently continuous maintenance.

For this reason **EUROGOMMA** casts and supplies a large set of Polyurethane Linings & Coatings owning excellent wear protection performances and avoiding the tedious problem of sticking material's attachment on chutes, hoppers, trailers... It is quite surprising how the simple application of our Polyurethane Linings & Coatings can cut down maintenance operations and keep the plant always in good form!

Stop breaking your plants!

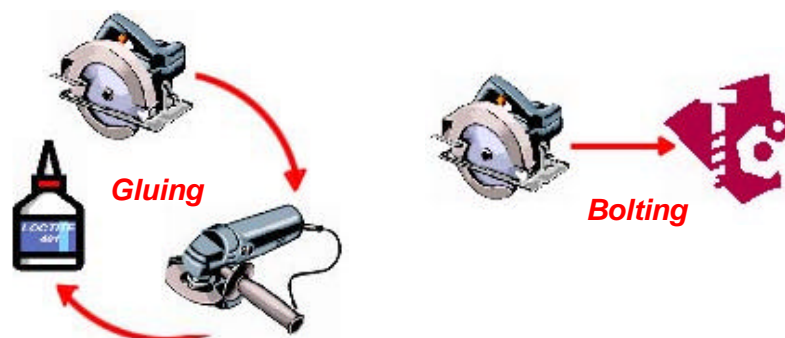

AVAILABILITY

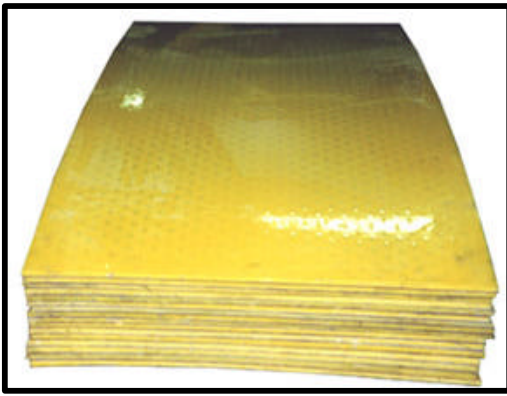

- **Form**

Polyurethane and rubber backed polyurethane rolls.

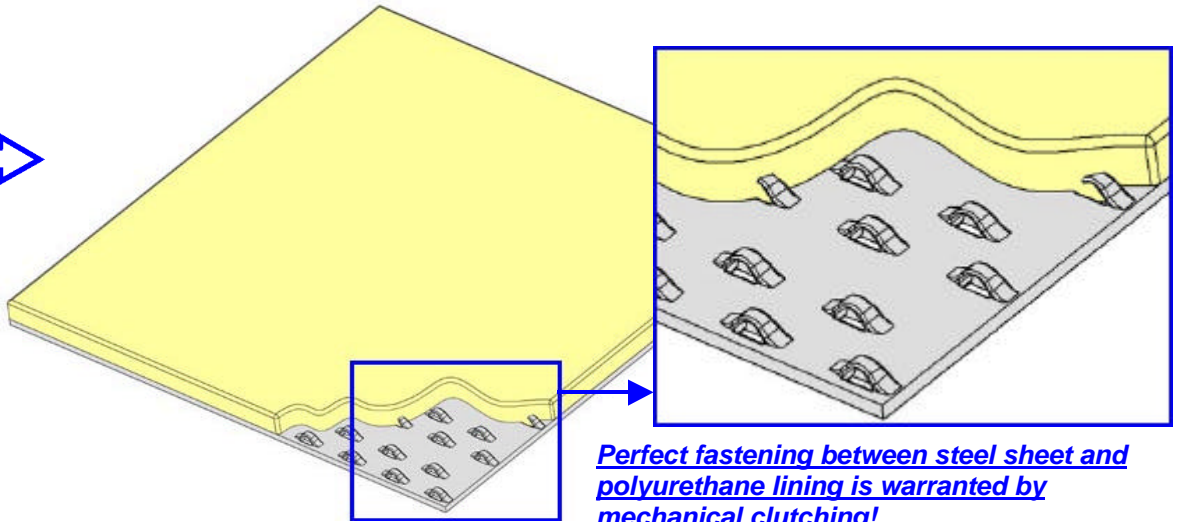

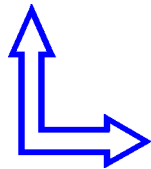

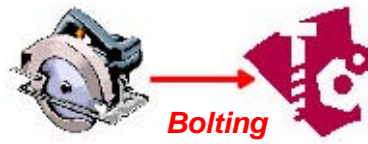

APPLICATION

Steel backed polyurethane plates

APPLICATION

Perfect fastening between steel sheet and polyurethane lining is warranted by mechanical clutching!

AVAILABLE DIMENSIONS

	ROLLS		PLATES	
Thickness	3 ▷ 60 mm	1/8" ▷ 2"2/5	8 ▷ 200 mm	1/3" ▷ 8"
Width	max. 1340 mm	max. 4 ft 1/2	3000 mm	10 ft
Length	as requested	as requested	3000 mm	10 ft

PRACTICAL APPLICATIONS

Chute Lining

Hopper Lining
